SUMMARY

Data Engineer with experience building Python and SQL-based data pipelines, Snowflake automation, and enterprise data governance solutions. Skilled in data ingestion, transformation, validation, metadata management, dataset ownership, API integrations, and workflow automation. Experienced with cloud, DevOps, and distributed data technologies, with additional hands-on exposure to GenAI and Agentic AI.

TECHNICAL SKILLS

Languages: Python, SQL, C#, C++, TypeScript

Data Engineering: Snowflake, PySpark, Apache Spark, Databricks, Kafka, pandas, PostgreSQL, Microsoft SQL Server

Cloud & DevOps: AWS, Azure, Docker, Jenkins, OpenShift, Git, GitHub

APIs & Automation: FastAPI, REST APIs, APScheduler, Power Automate, SharePoint, Microsoft Graph API

AI: Generative AI, Agentic AI, LangChain, LangGraph, MCP

EXPERIENCE

Capgemini

Pune, Maharashtra, India

Analyst – Data Engineering / Data Classification & Governance

Jul 2024 – Present

- Build Python automation and data pipelines for ingestion, transformation, validation, and enterprise data governance workflows.
- Develop Snowflake solutions for schema validation, metadata management, dataset ownership, scanning, remediation, and escalation workflows.
- Integrate FastAPI, SharePoint/Excel, Power Automate, and Microsoft Graph API to automate governance workflows and reduce manual effort.
- Automate scheduled workflows with Python/APScheduler and support Docker, Jenkins, and OpenShift deployments.

Powertronics Control System Pvt Ltd

Ahmedabad, Gujarat, India

Software Developer

Apr 2024 – Jul 2024

- Built internal tools and desktop applications using VB.NET and .NET Framework within a Scrum team.
- Developed SSRS reports and transformed Microsoft SQL Server data for business reporting; deployed solutions on Microsoft Azure.

Freelance

Self-employed

Full-Stack Developer

Jul 2023 – Feb 2024

- Delivered web and desktop applications for 4+ clients across requirements, UI, backend, database design, and deployment.
- Built .NET and JavaScript solutions with SQL Server, normalized schemas, stored procedures, and complex SQL queries; deployed applications to Azure.

Shri Om Infotech

Ahmedabad, Gujarat, India

Jr. .NET Developer

Jun 2022 – Jun 2023

- Developed client-facing ASP.NET/C# applications backed by Microsoft SQL Server.
- Resolved application defects and optimized SQL queries; collaborated with clients and developers in Agile workflows using Git.

TatvaSoft

Remote

Software Development Intern

Jun 2022

- Contributed to Book-e-Sell using JavaScript, ASP.NET, C#, and MySQL; implemented features and fixes using Git.

PROJECTS

Investment Portfolio Tracker | Python, Flask, Dhan API

- Built a portfolio analytics application integrating the Dhan API with XIRR and CAGR calculations for investment tracking.

Fooddy | HTML, CSS, JavaScript, PHP, MySQL

- Built a restaurant ordering and management application covering customer orders, kitchen communication, table assignment, and billing.

CERTIFICATIONS

AWS Certified Cloud Practitioner – AWS	Dec 2025 – Dec 2028
Academy Accreditation – Databricks Fundamentals – Databricks	Mar 2025
Claude Certified Architect – Foundations (CCA-F) – Anthropic	Jun 2026 – Jun 2027

EDUCATION

LDRP Institute of Technology and Research	Gandhinagar, Gujarat, India
<i>Bachelor of Engineering in Computer Engineering; CPI: 7.83/10</i>	<i>2019 – 2023</i>
