

PRIYANSH MODI

Data Engineer | Python | SQL | Snowflake | Data Engineering

Ahmedabad, Gujarat, India | 7043103661 | priyanshmodi9@gmail.com | linkedin.com/in/priyanshmodi09 | GitHub

Summary

Data Engineer with 2+ years of experience developing Python and SQL-based data pipelines and automation solutions across enterprise data environments. Experienced with Snowflake, pandas, data governance, ingestion, transformation, validation, metadata management, and workflow automation, with hands-on exposure to Databricks, Spark/PySpark, AWS, Kafka, and GenAI/Agentic AI.

Technical Skills

Core Data: Python, SQL, Snowflake, pandas, PySpark, Spark, Databricks, PostgreSQL, SQL Server

Data Engineering: ETL/ELT, Data Pipelines, Data Validation, Data Governance, Metadata Management, Data Quality, Dataset Ownership

Cloud / DevOps: AWS, Docker, Jenkins, OpenShift, Git, GitHub

Integration / Automation: REST APIs, Kafka, APScheduler

AI: Generative AI, Agentic AI, LangChain, LangGraph, MCP

Experience

Capgemini

Pune, Maharashtra, India

Analyst – Data Engineering / Data Classification & Governance

Jul 2024 – Present

- Build and maintain production-grade Python automation and data pipelines for structured data ingestion, transformation, validation, and governance workflows.
- Develop Snowflake-based governance solutions for schema validation, metadata management, dataset ownership, scanning, remediation, and escalation workflows.
- Automate recurring governance processes using Python and APScheduler, reducing manual effort and improving data quality and process consistency.
- Support production deployments through Docker, Jenkins, and OpenShift while collaborating with cross-functional teams on client-facing data solutions.

Powertronics Control System Pvt Ltd

Ahmedabad, Gujarat, India

Software Developer

Apr 2024 – Jul 2024

- Built and maintained internal desktop applications using VB.NET and .NET Framework within a Scrum team.
- Developed SSRS reports and performed data cleaning and transformation using Microsoft SQL Server to support business reporting and data accuracy.

Freelance

Self-employed

Full-Stack Developer

Jul 2023 – Feb 2024

- Delivered web and desktop applications for 4+ clients, owning requirements, development, database design, testing, and deployment.
- Built .NET and JavaScript solutions using SQL Server, normalized schemas, stored procedures, and complex SQL queries for efficient data retrieval and business logic.

Shri Om Infotech

Ahmedabad, Gujarat, India

Jr. .NET Developer

Jun 2022 – Jun 2023

- Developed and maintained client-facing ASP.NET/C# applications backed by Microsoft SQL Server; resolved application defects and optimized slow-running SQL queries.
- Collaborated with clients and developers in Agile workflows using Git for version control and code collaboration.

TatvaSoft

Remote

Software Development Intern

Jun 2022

- Contributed to Book-e-Sell using JavaScript, ASP.NET, C#, and MySQL; implemented features using Git.

Selected Projects

Sentixtract / Python, Flask, TensorFlow, LSTM, TextBlob, Google Perspective API

- Built a full-stack sentiment analysis web app with a Flask dashboard offering tweet extraction, COVID-based LSTM sentiment classification, and Google Perspective API integration.
- Fine-tuned an LSTM model for tweet classification and integrated TextBlob and external APIs to improve classifier accuracy and coverage.

Certifications

AWS Certified Cloud Practitioner – AWS

Dec 2025 – Dec 2028

Claude Certified Architect – Foundations (CCA-F) – Anthropic

Jun 2026 – Jun 2027

Academy Accreditation – Databricks Fundamentals – Databricks

Mar 2025

Education

LDRP Institute of Technology and Research

Gandhinagar, Gujarat, India

Bachelor of Engineering in Computer Engineering; CPI: 7.83/10

2019 – 2023
